

Figure 67

*Sanguinicola* sp. cyst (arrow) in the capillary of a gill lamella of a cutthroat trout, *Salmo clarki*.

M-G G stain. X2400.

Figure 68

*Sanguinicola* sp. Encysted eggs (white arrow) and developing miracidium (black arrow) in the gill of a fingerling steelhead trout.

M-G G stain. X360.

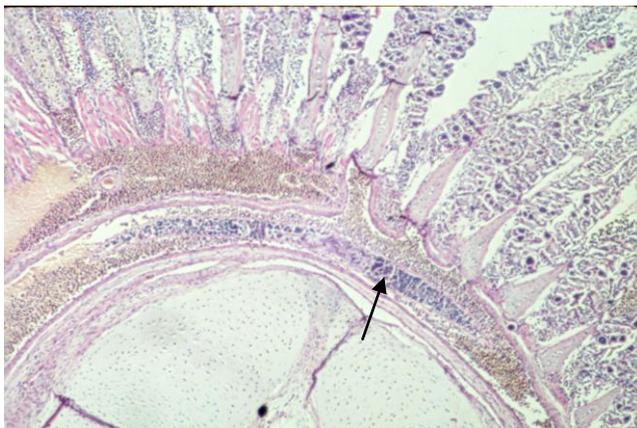

Figure 69

*Sanguinicola* sp. Adult blood fluke may occasionally be seen in the branchial artery (arrow). Also note the numerous egg cysts and hyperplasia in the gill lamella.

H&E stain. X120.
